

SENNEBOGEN ATTACHMENTS

The Right Tools For The Job

Grapples

Scrap Magnets

Couplers

Custom-engineered to get the best from your machine

SENNEBOGEN®

GRAPPLES

Orange Peel Grapples

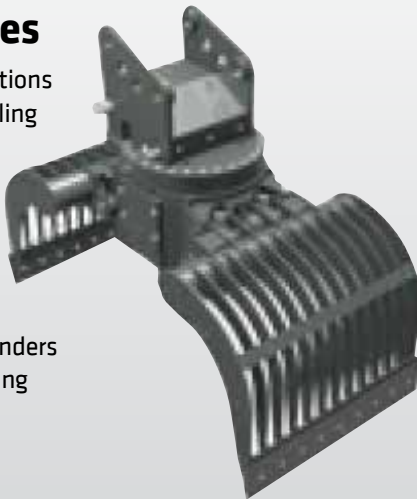

Built to grab and hold large loads efficiently, with easy handling and reliable service

- 4-tine and 5-tine scrap grapples
- From .5 to 5.0 cu. yd.
- Fully sealed Rotobec rotator design with 360° rotation
- Self-contained cylinders with integrated guarding
- Protected hose routings and hose guarding
- Tine tips 44% stronger than Hardox 400

Waste Grapples

- For waste transfer stations and wood waste handling
- Extra wide jaw and elongated head grabs large loads
- Slotted holes allow small debris to fall through
- 5,000 psi Rotobec cylinders with integrated guarding

SCRAP MAGNETS

Lifting Magnets

Made-in-America magnets engineered to operate 24/7 with consistent lifting strength throughout every working shift

- Deep field and extra deep field models with aluminum or copper coils
- Optimized for true 75% duty cycle
- Available in common sizes from 30" (762 mm) to 72" (1828 mm)
- Balanced for superior lift-to-weight ratios
- Heavy-duty cast or fabricated casings
- High-temperature insulation
- Durable manganese bottom plate

Mag Grabs

- 4-tine grabs fitted with magnets to sort and separate scrap metals
- 11 models from .75 to 1.5 cu. yd.
- Magnets from 30" to 44" diameter
- 360° rotation; designed for high radial and axial loads
- Removable cylinder guards for ease of service

COUPLERS

Quick Couplers

- 4 coupling types for quickly changing attachments
- Mechanical/hydraulic model with mechanical quick change bracket
- Simple mechanical mounting bracket allows pin to remain in the stick
- Mechanical or fully-hydraulic models coupler for standard or short ULM-stick

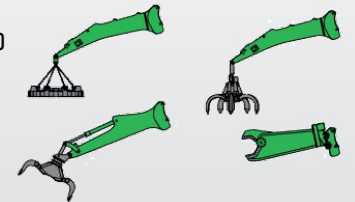

Multi-Tool

- Fast, safe changes with fully-hydraulic coupler for hanging attachments

Vario-Tool

- Turn your SENNEBOGEN 830 into a versatile tool carrier with an orange peel grab shear attachment, magnet and sorting grab

Hooks

- LH-type free-rotating loading hook
- DKS-LH safety hook for precise load positioning

Purpose-built, from end to end

Customers know that purpose-built SENNEBOGEN scrap handlers are the best machine for every job in the yard. Now, with SENNEBOGEN attachments, every scrap application has a 100% SENNEBOGEN solution.

SENNEBOGEN scrap grapples and lifting magnets are custom-engineered to get the best from your machine:

- maximum throughput and productivity
- long-life durability and reliability
- matched to the size and capacity of your machine

100% SENNEBOGEN

Match SENNEBOGEN machines with SENNEBOGEN attachments and your SENNEBOGEN scrap handling solution gets the added advantage of 100% SENNEBOGEN support.

Our factory-trained nationwide dealer network has the people with the background to ensure end-to-end service to your equipment. Repair parts and expert troubleshooting are just a phone call away.
