

# SENEBOGEN<sup>®</sup>

## CUSTOMER EXPERIENCE SPECIALISTS

**Providing free on-site familiarization**  
for your operators after your new  
SENEBOGEN has been delivered

# MAXIMIZE THE EFFECTIVENESS OF YOUR EQUIPMENT AND WORKFORCE

When you purchase a SENNEBOGEN machine, you get more than a specialized equipment solution; you receive a second-to-none service experience - **FREE**.

Our CXS specialist visits your yard 30-90 days after delivery to answer your questions and ensure operator confidence.

# PROVIDING YOU THE KNOWLEDGE YOU NEED TO GET THE MOST FROM YOUR MACHINE.

Our CXS specialist will ensure your people:

- get the most from the machine's capabilities
- feel comfortable operating the machine
- are knowledgeable about all machine settings

That means spending as much time with operators as necessary to make sure they understand the machine and are confident with it.

We discuss daily walk-around checks, service intervals, and special features.

We answer any and all questions about functions, uses, and maintenance.

## DO YOU KNOW?

1. How to adjust the grapple rotation speed from the SENCON control system?
2. What type of grease is best for the greasing system?
3. What the two red rocker switches below the right joystick do?
4. What 'Optimode' on the SENCON does?
5. Why the attachment needs to be shimmed snug at the stick tip?

**YOU HAVE THE MACHINE -  
NOW YOU HAVE A CXS SPECIALIST TO  
SHOW YOUR OPERATORS HOW TO USE IT  
MORE EFFECTIVELY AND CONFIDENTLY.**

## HAVE MORE QUESTIONS?

We'll come back to answer them too. We work around your production schedule so operations can continue. Larger groups can be accommodated in classroom settings. We want to familiarize your operators with their new machines.

Add training and after-sales packages and you'll see why we call it second-to-none service.

And, of course, the swag bags are popular.

You value your operators. We value our customers.

# TRUST SENNEBOGEN FOR LIFELONG AFTER-SALES »»»»»»»»»» SUPPORT

**SERVICE &
